Bishops' appreciation for €4.3m collected for the people of Ukraine and discuss plight of refugees in Ireland. Following the special Church collection over 26 and 27 March to help the humanitarian crisis arising from the Russian invasion and war in Ukraine, over €4.3m has been received from parish collections throughout the country. These funds are being channeled to assist those who are suffering devastation to their lives and livelihoods. Bishops said, "our parishes have responded with enormous generosity and compassion and we are most grateful for that. It is also heartening that some parish communities have established direct links with Ukrainian parishes and local charitable projects to support refugees and those remaining in Ukraine. The proceeds are being sent to the international Catholic Church agency, Caritas Internationalis, which is currently operating on the ground in Ukraine and its surrounding areas."

Trócaire - one person to die from hunger every 48 seconds in the Horn of Africa: Trócaire advised bishops of the devastating impact that climate change is having on the countries in which it works, with the Horn of Africa facing its fourth consecutive year of drought. In Somalia, Kenya and Ethiopia one person is likely to die from hunger every 48 seconds, while approximately 5.7 million children are acutely malnourished. The United Nations warns that 350,000 children could die by the autumn unless action is taken. The threat of famine is due to the continual failure to address the lethal combination of climate change, conflict and the economic consequences of the Covid-19 pandemic, which have left the region in extreme crisis. This has been exacerbated by the disruption of the global economy and food systems as a result of war in Ukraine, with fuel and food prices spiraling. Bishops call on Government, and the international community, to act immediately to end this hunger crisis, which may be achievable if a concerted effort is made now.
